Weather Key Points

Regional Operations Center

Western Region

Tuesday, October 11

- Scattered showers and thunderstorms will again be seen across the southern mountains and foothills through Wednesday, with a few storms also possibly drifting over areas closer to the southern coast at times
 - The greatest coverage of storms is expected on Tuesday, though widespread rainfall is not expected
 - Stronger storms will be capable of producing locally heavy rainfall rates, numerous lightning strikes, gusty winds of 30+ mph, and small hail
 - Flood watch in effect through Tuesday evening for the mountains of Los Angeles County including the Fish Fire burn scar
- Additional showers and thunderstorms are expected to return to much of southern California very late Friday but especially into the weekend. At this time, the exact coverage of storms remain uncertain, though a few could again produce locally heavy rainfall.
- Most of northern California will remain dry over the next 7 days, with daytime temperatures 5-10 degrees above normal for mid October
